Keep your workforce safe with up-to-date training

A company culture that's centered on safety helps protect employees, increases productivity, and boosts morale.

OpenSesame provides a centralized space for taking care of safety training with OHSA compliant learning materials, industry specific training content, and guidance in finding the right safety courses for your organization.
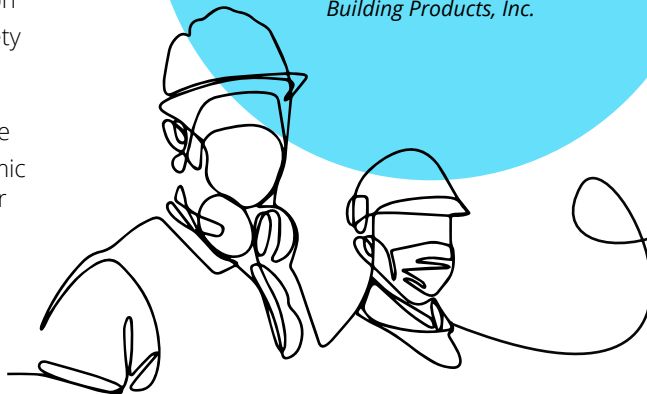

Top 10 Courses:

- Bloodborne Pathogens (BBP)
- Slips, Trips, and Falls
- Personal Protective Equipment (PPE) Fundamentals
- Fire Extinguisher Safety Awareness (Global)
- Egress and Emergency Action Plans (Global)
- Back Safety: Orientation
- How to Develop a Safety Program: Workplace Risks and Hazards
- Active Threat Response
- Setting Up an Ergonomic Workspace at Home or in the Office (DSE)
- Lockout/Tagout Safety Procedures

"The greatest benefit is that OpenSesame safety courses allow us to offer a greater variety of courses and integrate them with our LMS."

- Kim Rovansek, Learning and Development Manager, PrimeSource Building Products, Inc.
